Let's bring the
extraordinary
to the table

2020

since 1870

Not every flame is the same.

Some stand out by investing in excellence. In superior materials, in people, in our planet, our partners, and utilizing eco-friendly technology. You might see this as a high standard, but we see this as a normal. Available for everyone, but especially for those longing for a perfect ambiance from inspiring collections.

We provide the best burning performance possible. Conveniently packed to make life easier because your work floor is already busy enough. For 150 years our craftsmanship has lit up places where people come together.

Wherever it is, whatever it is. Let's bring the extraordinary to the table.

irresistible experience

With excellent quality, using premium materials and aim for maximum performance standards, you can easily create the best atmosphere possible. On top of that, we ensure a fragrance free and clean burning of our collections.

social responsibility

We do everything to produce our collections in the fairest way possible with love for people and planet. Therefore, our candles are sourced and made in Europe.

mission green

We are conscious about our ecological footprint, we would to keep it as small as possible and the vibes happy. To improve that we eliminating palm oil, using recycled plastic and recyclable materials.
